

What makes CALB a good battery manufacturer?

CALB is an ISO9001 certified manufacturer of lithium-ion cells and energy storage system, aiming at providing the best battery solutions available today and in the future so as to promote low carbon economy and sustainable development globally. Here are the high quality 3.2V LiFePO4 prismatic cells produced by CALB:

Who is CALB batteries?

CALB is a leading company in designing and manufacturing batteries and power system with advanced technology for various applications, enabling utility and industry customers to improve performance while lowering environmental impact around the world.

What is China Aviation lithium battery (CALB)?

China Aviation Lithium Battery (CALB) will invest 2 billion euros in the state-of-the-art factory - its first in Europe. Set to begin production in early 2026 with an initial annual capacity of 15 GWh, it will expand in 2028 to 45 GWh, with the possibility of doubling capacity in a third phase.

Is CALB the world's biggest supplier of electric car batteries?

CALB is the seventh largest supplier of electric car batteries in the world - according to 2022 data - and the new factory is an important part of its plan to become one of the top three, with a total global capacity of 1,000 GWh by 2030. [See more: BYD holds talks with Brazilian lithium producer]

Who is CALB Group?

CALB Group Co., Ltd is a global leader in new energy technology.

What is CALB committed to?

CALB Group Co., Ltd As a global leader in new energy technology, CALB is committed to being an energy value creator.

Fellten specialises in Battery Packs for diverse applications, offering versatile and reliable power solutions. Our battery packs serve various industries, including automotive, ...
