

# Can other ev cars use tesla charging stations

Where can I charge a non-Tesla Electric Vehicle?

Most useful for Electric Vehicle (EV) drivers and owners will likely be Tesla destination chargers, most commonly found at hotels, parks, and shopping centers. These chargers are primarily designed for Tesla vehicles and it's unlikely they will allow for non-Tesla charging unless Tesla goes around and updates those chargers.

Can a non-Tesla electric vehicle charge at a Tesla Supercharger station?

Non-Tesla electric vehicles can charge at some Tesla Supercharger stations with the use of an adaptor such as the Magic Dock. You might think you need a Tesla to charge your electric vehicle at a Tesla station, but that is not the case.

Can a Tesla Supercharger be used with other EVs?

If it proves successful, Tesla will make more of its Superchargers available to other brands of EVs. To use a Tesla Supercharger, your electric car needs to be CCS-enabled (Combined Charging System) for fast charging, which most pure EVs are - such as the Nissan Ariya, Skoda Enyaq, BYD Dolphin, Kia EV6, Hyundai Kona Electric and Volvo EX30.

Can I use Tesla Chargers if my EV isn't a Tesla?

It's possible to use Tesla chargers if your EV isn't a Tesla. However, as InsideEVs points out, there are limitations. It's important to know that only Teslas can use the Tesla high-speed superchargers. No exceptions. There are currently no available adapters that can enable you to use one of these on a non-Tesla vehicle.

Will Honda EVs be compatible with Tesla's charging network?

Honda has announced that it will introduce an adapter for its CCS-equipped EVs, making them compatible with Tesla's Supercharger network.
