What is the best wireless car charger?

iOttie makes some of the best wireless car chargers, and its Auto Sense 2 is no exception. The Sense 2, available in the air vent, dash/windshield, and foldable phone variants, can deliver up to 15W fast wireless charging to your phone.

Should you use a wireless charger in your car?

Wireless chargers are incredibly convenient, whether you are using one in your home or, better yet, your car. They help you avoid USB-C cables daily. But many pre-installed in-car wireless chargers are either too slow or finicky. There is also a good chance that your vehicle doesn't have one.

Do you need a phone car charger?

A phone car charger is a sought-after smartphone accessory. Of course, there's your vehicle's built-in USB port for charging, but by the time you arrive at your destination, your phone will probably still be giving you the "below 20 percent" middle finger.

How fast does a wireless car charger charge?

Having said that, none of our tested picks match the speed of a car's 12-volt accessory outlet (the cigarette lighter) or your wall charger at home. Qi (pronounced "chee") is a wireless charging standard that most wireless car chargers use to charge your smartphones and typically takes 1.5 hours to give your device 50% of battery charge.

Is Piosoo a wireless car charger?

A little spoiler: It's not a completely wireless ride, since you'll still need to plug a cord into the wireless charger, just not into the phone itself. Piosoo's wireless car charger mount fits into a cupholder and is particularly useful thanks to its adjustable long neck.

Whether you know someone whose smartphone is always low on battery, or who can't get around without relying on battery-depleting apps such as Google Maps or Waze, consider gifting them a wireless car charger.
