

Does Walmart have EV charging stations?

Beyond that, Walmart partnered with Electrify America in 2018 to offer charging stations at multiple storefronts. This is convenient if you own an electric car, especially since you can charge it at over 100 Walmart locations -- and if you're shopping, you could have your EV ready to go on a long-distance trip after a few minutes.

How much does a Walmart charging station cost?

On the other hand, some Walmart charging stations are installed in states where customers are billed per minute. If that's the case, it will cost you 32 cents per minute for a 350-kW charger if you're a guest, and 24 cents per minute if you're a Pass+member.

How much does it cost to charge an EV at Walmart?

It is not free to charge an EV at Walmart's charging stations. The Electrify America charging stations located at select Walmart locations charge by the minute or by the kilowatt-hour (kWh), depending on your state. Discounted prices are available to Electrify America Pass+Members.

How long does it take to charge an electric car at Walmart?

Generally, you can expect to charge your electric vehicle up to 80% in 15-30 minutes from a Walmart charging station. The charging speeds at select Walmart locations are 150kW and 350kW and are provided by Electrify America. The cost to charge is by the minute or by the kilowatt-hour, depending on your state.

Does Walmart have Electrify America charging stations?

Walmart does not have Electrify America charging stations. However, some select Walmart locations do offer charging stations with different providers. The Electrify America charging stations, when available, charge by the minute or by the kilowatt-hour (kWh) depending on the state.

Which EV chargers are available at Walmart?
