

Where can I charge my electric vehicle in Charleston?

There are 8 publicly available electric vehicle charging stations in Charleston, located in City parking garages. Charging your electric vehicle is free at these stations, but using the garages will require a fee. There are also a number of other private charging stations throughout the City, such as at hotels and commercial enterprises.

How much does it cost to charge an electric vehicle?

Charging an electric vehicle at our stations is free, but there is a fee to enter the garage. Please note that there are also other private charging stations throughout the City, such as at hotels and commercial enterprises, which may have their own charging fees.

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

How do I add EV charging stations?

Add EV Charging Stations Zoom in on the map and click on station markers to review details. Ensure compatibility with your vehicle, then click "Add to Trip" to include it. Repeat the process to add additional charging stops.

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.

What power level does a destination Charger offer?

Destination chargers usually provide an output of 3 kW to 22 kW. The color shades on the map indicate the power level: light orange for 3-7 kW and darkest orange for 22 kW. The most common are fast chargers, shown in dark blue, which provide 50 kW.
