

How many megawatt charging stations are there in China?

On March 17, BYD released the 10C megawatt charging stations suitable for passenger electric cars with the 1000V high-voltage system. They can charge 400 km of range in 5 minutes. The company's chairman Wang Chuanfu announced that BYD will establish over four thousand megawatt charging stations across China.

How fast can a Super E-platform charge a car?

Immediate plans indicate that about 4,000 Megawatt-level charge posts are on the roadmap. The new chargers would be able to feed the Super E-Platform vehicles with up to 1,000 kW at peak power, adding 400 km (249 miles) of range in 5 minutes of charging. This literally makes charging an electric car as fast as filling up a tank at a gas station.

How fast can a car charge?

The platform upgrades the core electric components, achieving a charging power of 1 megawatt (1000 kW) and a peak charging speed of 2 kilometers per second, making it the fastest for mass-produced vehicles - 5 minutes of charging for 400 kilometers of range.

What is a BYD charging station?

The new charging stations are the world's first all-liquid-cooled Megawatt Flash Charging terminals, boasting output capacity up to 1360kW. BYD is planning to build over 4,000 of them in China. BYD has also touted the abilities of its dual-gun charging technology, whereby a car can be plugged into with two charging guns at once.

What is a Super E-platform Charger & how does it work?

The new ultra-fast chargers are crucial to charging vehicles using its latest Super E-Platform, which is capable of 10C charging thanks to a new generation of the company's Blade battery. The first vehicles underpinned by this architecture are the BYD Han L sedan and Tang L SUV.

How many BYD charging stations are there in China?

The company's chairman Wang Chuanfu announced that BYD will establish over four thousand megawatt charging stations across China. BYD was often criticized for its slow DC charging function. Despite being safe, BYD's Blade LFP batteries took longer to charge than ternary NMC packs from other manufacturers.
