

### What is CATL Battery Company?

CATL, or Contemporary Amperex Technology Co. Limited, is a spin-off of Amperex Technology Limited (ATL), which was founded by Yuqun Zeng as a battery company for consumer electronics in 1999. In 2011, when the EV industry boomed in China, Zeng realized that vehicle batteries could present a massive, long-term opportunity.

### Is CATL a good EV battery company?

According to SNE Research, CATL's EV battery consumption volume has ranked first in the world for seven consecutive years, holding 36.8% of global EV battery market share in 2023. CATL has also ranked first in the market share of global energy storage battery shipment for two straight years in 2022.

### Why is CATL a leader in battery technology?

CATL's leading position in the next generation of battery tech and its status as the revenue leader in the battery industry have enabled it to continue its high R&D spending to maintain its technological advantage. This research and development effort has paid off for the company.

### What makes CATL a good battery company?

CATL is a good battery company because Ford can bring the efficiency and scalability of its technology and plants in China to the United States through licensing. This is overwhelmingly positive for Ford and the EV industry in the United States. Additionally, CATL has positioned itself as a global leader in battery research and innovation.

### What is CATL doing to create a circular economy for batteries?

CATL is pursuing a global energy circularity commitment and will work with the Ellen MacArthur Foundation to drive the development of a circular economy for batteries. Together, we will map opportunities across the battery value chain and build a cross-industry ecosystem to develop and implement a blueprint for battery circularity.

### Where is CATL battery made?

In June 2018, the company went public on the Shenzhen Stock Exchange with stock code 300750. Headquartered in Ningde, China, CATL has established thirteen battery manufacturing bases worldwide. At the same time, CATL has opened subsidiaries in Munich, Germany; Paris, France; Yokohama, Japan; Detroit, USA as well as other places.
