

Is CATL a good EV battery supplier?

CATL has a strong position in its home market of China, where it commands an almost 40% share of the EV-battery industry, according to data from the China Automotive Battery Innovation Alliance. It maintains that advantage by being a top battery supplier for major automakers, including Tesla, Volkswagen, BMW and Geely.

What percentage of battery sales will CATL expect?

The Citi analysts said that CATL expects total battery shipments to the U.S. market, including both direct and indirect sales, to cover a single-digit percentage of total battery sales, or around 2%-3%, lower than previously anticipated.

Why did CATL stock drop 2% on Wednesday?

Despite the confidence and higher net profits, CATL's stock slipped around 2% on Wednesday following the lower revenue expectations. CATL shares are still up nearly 70% over the past 12 months, as the EV battery leader launched new products and expanded its global market lead. Add Electrek to your Google News feed.

Will CATL list on the Hong Kong stock exchange?

On Thursday, CATL announced plans to list on the Hong Kong Stock Exchange to drive the company's "global strategic layout" and improve its competitiveness. In a filing with the Shenzhen Stock Exchange, CATL said it intends to issue overseas listed H shares and apply for listing on the Hong Kong Stock Exchange.

Will CATL report less revenue in 2024?

The world's largest EV battery maker warned that it expects to report less revenue in 2024 than the previous year, sending share prices down on Wednesday. CATL (SHE: 300750) stock dipped after its 2024 Annual Performance Forecast was released. Here's a preview of CATL's financials for last year.
