

Is CATL a good EV battery supplier?

CATL has a strong position in its home market of China, where it commands an almost 40% share of the EV-battery industry, according to data from the China Automotive Battery Innovation Alliance. It maintains that advantage by being a top battery supplier for major automakers, including Tesla, Volkswagen, BMW and Geely.

Is China's 'CATL' a good stock to buy in Hong Kong?

China's Contemporary Amperex Technology (CATL), the world's largest producer of batteries for electric vehicles and a supplier for Tesla, has applied for a listing in Hong Kong, setting sights on one of the city's largest stock offerings in years. The battery giant expects to raise at least \$5 billion, according to Reuters.

What percentage of battery sales will CATL expect?

The Citi analysts said that CATL expects total battery shipments to the U.S. market, including both direct and indirect sales, to cover a single-digit percentage of total battery sales, or around 2%-3%, lower than previously anticipated.

Does CATL own a battery factory?

CNN has reached out to CATL for further comment. As of last year, CATL operates 13 battery factories around the world, including in China and Germany, according to the filing. The firm has previously announced it was working on a joint venture in Spain with Stellantis, the owner of Fiat and Chrysler, to build a battery plant.

Why did CATL stock drop 2% on Wednesday?

Despite the confidence and higher net profits, CATL's stock slipped around 2% on Wednesday following the lower revenue expectations. CATL shares are still up nearly 70% over the past 12 months, as the EV battery leader launched new products and expanded its global market lead. Add Electrek to your Google News feed.
