

Charging station companies for electric cars

Are electric car charging stations available for public use?

Level 2 and 3 charging stations are available for public use, and successfully owning an electric vehicle involves planning your trips accordingly. However, with an electric vehicle charger installed into your home, the hassle of re-fueling that comes with gasoline cars and the line-ups at public stations becomes significantly reduced.

How to find public charging stations for electric cars? Living With An Electric Car | Learn to drive: Car knowledge youtube.com Who pays for EV charging stations?

Beyond ChargePoint and Tesla, companies such as Blink, Electrify America, EV Connect, Volta and EVgo are the nation's other main providers of EV charging stations. Who pays for all these stations, you ask? That depends. Some are provided by a private company or automaker for free, while for others, the costs are passed on to the customer.

How many EV charging stations are there?

The increasing number of EVs hitting the road necessitates increased and better charging infrastructure. But as of now, only about 1,700 public charging stations are operational across the country--extremely inadequate to support EV growth. EV users face another challenge: knowing where the charging points are.
