Where to charge an EV?

Let's have a look below at the five most common EV charging locations. By far, the most popular EV charging location is the home, with over 64 percent of EV drivers regularly charging there. This is hardly surprising - home charging is the most convenient and usually also the cheapest place to charge an EV.

What can you do while your EV is charging?

Drive up, plug in and enjoy the amenities nearby while your EV is charging. Use the charging map to find the right EV charging station for you from the largest global EV charging network. Charging at a ChargePoint or roaming partner station in the world's largest EV charging network is easy, affordable and convenient.

Are there public charging stations for electric cars?

Yes, there are three levels of public charging stations for electric vehicles. All vehicles can be connected to either a Level 1 or Level 2 charging station, which have the same charging capacity as those you can install at home.

What is the difference between charging stations and EV charging stations?

One of the main differences between charging stations is how much power they can provide, which, in turn, impacts how fast they can charge your car. EV chargers are classed into three levels depending on how much power they deliver.

Can I charge my electric car at home?

Yes, you can charge your electric car at home. While you're eating, playing with the kids, watching TV, or sleeping, your car can be charging. Another advantage of home charging is the low cost of electricity compared with the cost of public charging stations and gasoline.
