

How many EV charging stations are in New Jersey?

"New Jersey DEP has awarded nearly \$10 million for 1,970 EV charging stations with 3,229 plugs on our corridors, and in our communities," Commissioner of Environmental Protection Shawn M. LaTourette said.

What is the New Jersey electric vehicle charging station law?

New Jersey enacted a law (the Electric Vehicle Charging Station Law), which Governor Murphy signed into law in July 2021. The New Jersey Department of Community Affairs ("DCA") was required to publish a statewide model ordinance to provide guidance on how to implement the provisions of the new statute.

What are electric vehicle charging stations?

Electric vehicle charging stations are flexible devices that can be installed outdoors (on an exterior wall) or indoors (in your garage), inside your property. They are needed for charging electric vehicles inside your property.

How do you charge an electric vehicle?

Charging an electric vehicle is as simple as plugging in- but there are some things to know about charging options, connector types, and charging times. This is the slowest method of charging but is sufficient for many EV drivers. Every EV can be plugged into a standard residential 120-volt outlet using the charger cord provided with the vehicle.

How do I know if a charger is available in New Jersey?

Some even let you know if a charger is available now, if there is a wait time, and if you can make a reservation. The EVvaluateNJ dashboard is made possible through a collaboration between the NJDEP and Atlas Public Policy to provide analytics regarding the state of transportation electrification in New Jersey.

What is the slowest way to charge an EV?

This is the slowest method of charging but is sufficient for many EV drivers. Every EV can be plugged into a standard residential 120-volt outlet using the charger cord provided with the vehicle. Level 1 charging provides 3-5 miles of range per hour of charging.* That comes out to 35-50 miles of range for 12 hours of overnight charging.
