

What are Cheyenne power cables & adapters?

The power cables allow Cheyenne machines to be connected to the Cheyenne POWER UNITS. With the help of our adapters you can also use other power supplies or connect the original POWER UNITS with the equipment of other suppliers. Cheyenne Cables & Adapters: ? flexible ? high quality ? made of robust materials ? stand for durability and reliability.

Does Cheyenne Have a tattoo power supply?

The tattoo power supply is equipped with country-specific plugs, so that even on convention tours abroad: Simply connect and get started! I have been using Cheyenne tattoo equipment for over a decade and I will never change as Cheyenne is just the best! I currently use the Cheyenne HAWK PEN and Cheyenne needles.

Why should you buy a Cheyenne Pu?

From fine detailed lines, to thick bold outlines, solid color packing to soft shading, dot work to brush strokes, the Cheyenne does it all. The Cheyenne PU I & II: ? functional, robust and easy to clean ? two machines can be connected simultaneously ? with country-specific plugs.

With an operating voltage range from 4.7 to 12.5 Volts DC, the Cheyenne Hawk PU IV is ideal for the low-frequency operation of its SOL family of rotary tattoo machines. Thanks to its compact size, the Cheyenne Hawk PU ...
