

How many homes will a Michigan solar project power?

Consumers Energy announced agreements to add 300 MW of clean energy -- enough to power about 150,000 homes-- from two Michigan solar projects being developed in Genesee and Hillsdale counties.

Who owns a new solar project in Michigan?

Consumers Energy would purchase power from Confluence Solar in Genesee County and Heartwood Solar in Hillsdale County. The agreements are being reviewed by the Michigan Public Service Commission. The new solar projects are each 150 MW and scheduled to begin operating by year-end 2024. Ranger Power will own and operate the sites.

How many jobs will confluence solar create in Genesee County?

The new solar projects are each 150 MW and scheduled to begin operating by year-end 2024. Ranger Power will own and operate the sites. The \$200 million Confluence Solar project is expected to create up to 250 jobs in Genesee County during construction and generate over \$25 million in new property tax revenues over the lifetime of the project.
