

Is adding a solar fountain to my pond a good idea?

Adding a solar fountain to your pond can make it into a tranquil water feature. The sound of the moving fountain water is so relaxing! No mains power is required and they can be used at night using the battery which is powered during the day from the solar panel. Various sizes are available, to suit different pond sizes.

What do solar water fountains do for pond water?

Solar water fountains not only create different fountain patterns but also help to keep the water clean and safe for fish, if they inhabit the pond. These water fountains powered by solar energy usually float on the surface of the pond and make waterfalls of different height and width.

How strong is a solar pond fountain?

**FEATURES** Solar Panel Strength: 1.4 Watts. Can be operated by Remote Control (Supplied - works up to 10 metre distance). This is the smallest size of the static solar pond fountains, with a solar panel that is placed by the side of the pond, and attached with a cable. Ideal for a small pond or water feature, such as a half whisky barrel.

What size pond should a solar panel be placed next to?

Solar panel fountains are ideal for a large water feature or small to medium sized pond. The solar panel is placed next to the pond. These fountains are suitable for medium to large ponds, with some models capable of creating a high fountain spray.

How does a solar pond fountain prevent odors?

The solar pond fountain is a great choice for mixing the water levels and aerating the pond water to stay environmentally friendly for your fish. It will also prevent odors from contaminating the water along with the bacteria and algae.

Will a solar pond fountain turn off if water level is too low?

The solar pond fountain will immediately turn off if the water level in the pond gets too low. Adding a water movement to your pond, this solar-powered pond water fountain with LED lights can help you relax while enjoying the visual and audible treats of the pond fountain.
