

# Cost of installing electric car charging station in parking garage

How much does an electric car charging station cost?

The cost of an electric car charging station, also known as an EV charger, typically ranges from \$350 to \$900 for a Level 2 home charger, excluding installation. For faster charging or dual vehicle support, the cost can range from \$550 to \$2,000.

How much does it cost to install an electric car charger?

The cost to install an electric car charging station varies depending on the type of charger and the complexity of the installation. An electric car charging station installation costs \$750 to \$2,600 for a Level 2 charger, including a 240-volt outlet, wiring, and wall mounting. Tesla charger installation costs \$1,000 to \$1,700 total.

What is the cost of a wall-mounted EV charger?

Car park and garage installations are the simpler and more economic public EV charger options and will typically cost around \$6000 with the EV charger and wiring all being wall mounted. Runs longer than 40m are usually too expensive to justify station installation and therefore a change in location of the charge point needs to be considered.

Are public EV charging stations more expensive than home chargers?

Public EV charging stations are more expensive than home chargers. The cost varies depending on the number of stations, the type of installation, and specific site requirements.

What is the cost of installing an EV charger?

The cost of installing an EV charger varies. Some installations cost \$2,000 to \$5,000, depending on the complexity of the wiring or if the electrical panel needs upgrading. Tesla charger installation costs \$1,000 to \$1,700 total. Complex installs can add \$1,000 to \$3,000 to the total cost.

Do I need permission to install an EV charger in my garage?

If you own your own home you will not need permission to install an EV charger in your garage, providing the installation meets the standard EV charger installation requirements. If you do not own your own home you will likely need permission before carrying out any modifications on your garage.
