

What is a Deye hybrid inverter?

These advanced systems enable energy independence, backup power functionality, and intelligent power flow control in a single integrated solution. With maximum efficiencies reaching 97.6% and MPPT efficiencies exceeding 99%, Deye hybrid inverters maximize both solar conversion and battery interaction.

What is the maximum single phase Deye hybrid inverter?

The SUN-16K-SG01LP1-EU is the max single phase hybrid inverter on the global market. Deye hybrid inverters include single phase 3-16kW and three-phase 8-12kW. For the SUN-3K-SG04LP1-24-EU, it uses 24V battery bank and the rest of them adopts 48V battery.

Can Deye inverters be remotely controlled?

Thanks to the smart monitoring platform, Deye full series inverter products support remotely shutdown immediately when accident occurs. Setting parameters and FW update remotely, which makes PV plant O&M easier.

How does the Deye full series inverter support remote monitoring?

Thanks to the smart monitoring platform, Deye full series inverter products support remotely shutdown immediately when accident occurs. Setting parameters and FW update remotely, which makes PV plant O&M easier.

Who is Ningbo Deye inverter?

Ningbo Deye Inverter Technology Co., Ltd is the manufacturer of SUN-29.9/30/35/40/50K-SG01HP3-EU-BM3/4 inverter. They are a China-based company and supplier of hybrid inverters with HV battery support.

What types of solar inverters does Deye offer?

Deye offers grid-tie, hybrid, and off-grid inverters for both residential and commercial applications.
