

Who is Deye in the solar inverter industry?

Deye is a major player in the global solar inverter market. Founded in 2007 with registered capital of 205 million RMB (over 30 million USD), it is one of China's high-tech enterprises and a subsidiary of Deye Group. The company's factory covers over 15,000m²; and has complete production and testing equipment.

What is a Deye inverter?

Deye is dedicated to delivering reliable inverter solutions for residential and commercial photovoltaic power stations and energy storage systems, encompassing 1kW-136kW string grid-tied inverters, 3kW-50kW hybrid inverters, and 300W-2.2kW microinverters.

What does Ningbo Deye Inverter specialize in?

Ningbo Deye Inverter Technology Co., Ltd is dedicated to providing complete photovoltaic power system solutions, including residential and commercial power plants solutions. Factory cover over 15,000m²; and complete production and testing equipment, Deye has become a major player in the global solar inverter market.

What happened to Deye inverters?

In April 2021, Deye was successfully listed on the main board of Shanghai Securities Exchange, marking its formal entry in a new lane of rapid development. The sales of Deye inverters in overseas markets has grown exponentially, reaching RMB 334 million.

What products does Deye manufacture?

Deye manufactures solar inverters, batteries, air conditioners, and dehumidifiers. Our innovative products include single and three phase string inverters, hybrid inverters, low and high voltage solar storage batteries, hybrid AC/DC and DC48V solar air conditioners, home and industrial dehumidifiers.

Can Deye string inverter use in poor grid area?

Deye string inverters are capable of being used in poor grid areas thanks to their frequency droop feature. Deye, a PV inverter manufacturer and Solar On-grid, Grid-tie inverter supplier in China, was founded in 2007 with registered capital of 205 million RMB (Over 30 million USD).
