

Who manufactures Deye solar inverters?

Deye is a leading manufacturer of solar inverters, batteries, air conditioners, and dehumidifiers. Our innovative products include single and three phase string inverters, hybrid inverters, low and high voltage solar storage batteries, hybrid AC/DC and DC48V solar air conditioners, home and industrial dehumidifiers.

Does Deye offer a warranty on solar inverters?

Deye provides a 10-year guarantee for its solar inverters. Deye is an innovator and a leader in the field of advanced inverter technologies focusing on hybrid solar inverters, on-grid inverters, and special microinverters. Deye hybrid inverters support the parallel connection of up to 16 solar inverters, both on-grid, and off-grid.

Does Deye full series string inverter support VSG application?

Deye's full series string inverter supports VSG application. When grid failure, the string inverter is able to work with diesel generator directly without any additional EMS device. Setting parameters and FW update remotely makes PV plant O&M easier. This frequency droop feature also enables its use in poor grid areas.

What does Deye string inverter do during grid failure?

During grid failure, the string inverter is able to work with diesel generator directly without any additional EMS device. With this frequency droop feature, Deye string inverter is capable of using in poor grid area.

Who is Ningbo Deye inverter technology?

Ningbo Deye Inverter Technology Co., Ltd. was founded in 2007 and is currently a leading company operating on the global solar market. The company prioritises innovations, a global vision, and a forward-looking approach.

Does Deye string inverter work with diesel generator?

Deye string inverter can work with a diesel generator directly during grid failure without any additional EMS device. This is possible due to its frequency droop feature, making it suitable for use in poor grid areas.
