

## Do rest stops have charging stations for electric cars

Can electric vehicles charge at interstate highway rest stops?

The federal government has regulated interstate highway rest stops since 1956, and they cannot have fueling stations or restaurants, with some exceptions. But Congress introduced legislation in the form of H.R. 2 -- The Moving Forward Act -- that would permit electric vehicle charging at rest areas.

Should EV charging stations be placed at interstate rest stops?

And while the coalition understands the trend toward EVs, it blasted the idea of placing chargers at interstate rest stops. "If the objective is to install more EV charging stations, it is overly simplistic to think placing them at interstate rest areas is a good idea," said Fialkov. "It's like calls to ban gas-powered vehicles."

Will California add electric vehicle charging stations at highway rest stops?

California plans to add electric vehicle charging stations at dozens of highway rest stops, but state officials have run into regulatory and business hurdles. David Ferris/E&E News In 2016, California's Department of Transportation settled on what seemed like a no-brainer way to reduce emissions and make it easier to use electric vehicles.

Should EV charging stations be built near highways?

Advocates for businesses near highways held an opposite view. The National Association of Truck Stop Owners, for example, says that it has no objection to EV charging stations -- as long as they're built not at rest stops but on private land. The rest stop, NATSO argued to FHWA, is just too attractive to motorists.

Should interstate rest stops be regulated?

An Eisenhower-era regulation forbidding commercial activity at interstate rest stops has found itself in a new age, one where truckers want an end to rest stop shutdowns and environmentalists want easily accessible electric charging along the highways as the green movement accelerates.

How many fast-charging stations will New York State have?

It would establish fast-charging stations at 30 highway rest stops and other sites it operates around the state. That, it turns out, is harder to do than it seems. Of the 30 charging stations it said it would complete by last year, it has built three.
