

What gives Pine-Sol its distinct pine scent?

Pine-Sol is known for its distinct pine scent, which comes from pine oil, one of the ingredients in Pine-Sol. The ingredients in Pine-Sol also include 2-Propylheptanol and glycolic acid, among others.

What are the ingredients in Pine-Sol?

According to The Clorox Company, the manufacturer of Pine-Sol, the ingredients of Original Pine-Sol Multi-Surface Cleaner include water, C10-12 alcohol ethoxylates, glycolic acid, fragrance, caramel, dimethicone/silica/PEG distearates, sodium C14-17 secondary alkyl sulfonate and xanthan gum.

What is the main active ingredient in Pine-Sol?

Pine-Sol is a popular household cleaner known for its distinct pine scent and powerful cleaning properties. 2-Propylheptanol is a surfactant that helps to break up and lift away dirt and grime.

Does Pine-Sol contain toluene?

Yes, a recent study has shown that Pine-Sol does contain toluene. Toluene is used as a solvent in many cleaners and cosmetics. But it has been withdrawn from several uses because of its harmful health effects. But Pine-Sol still contains toluene, although not as an active ingredient.

What does Pine-Sol kill?

When used according to the instructions on the product, Pine-Sol kills 99.9% of germs and household bacteria on hard, nonporous surfaces. Original Pine-Sol® Multi-Surface Cleaner is registered with the EPA as a disinfectant when used as directed full strength.

Is pine oil a solvent?

Pine oil is only added in the original Pine-Sol variety. It comprises only about 8-12% of the total solution. It has solvent properties but it is mainly used for fragrance. It also has cleaning properties because it can break down grease. The other scented Pine-Sol varieties don't even contain pine oil. Is Pine-Sol toxic to breathe?
