

Does Dominion Energy offer community solar?

Customers receive a monthly credit on their bill for the electricity generated by their panels. (CSP) is a renewable energy solutions provider for utilities and the communities they serve. CSP has partnered with Dominion Energy to offer their community solar product to Dominion Energy electric customers across South Carolina.

How much solar energy does Dominion Energy have?

Since 2013, we've helped bring 2,200 megawatts (MW) of solar into operation in 10 states. That is enough energy to power about 550,000 homes at peak output. Dominion Energy currently has solar energy services in five states. We are planning a significant expansion of large-scale solar energy in Virginia -- up to 16,100 megawatts by the end of 2035.

How many states does Dominion Energy have solar energy services?

Dominion Energy currently has solar energy services in five states. We are planning a significant expansion of large-scale solar energy in Virginia -- up to 16,100 megawatts by the end of 2035. Learn more about what we are doing in each state: We are committed to growing clean energy and solar generation across the country.

How many solar projects does Dominion Energy Virginia have?

The proposal includes 11 utility-scale solar projects, two small-scale distributed solar projects, one combined solar and storage project, and one stand-alone energy storage project, which will be owned and operated by Dominion Energy Virginia.

What is the Dominion solar program?

This innovative program provides Dominion customer's the opportunity to support solar without the commitment of installing solar panels on their homes or maintaining them. Participating customers choose to subscribe or purchase solar panels from solar farms dedicated to this program.

Does Dominion Energy South Carolina offer rooftop solar?

Please note that Dominion Energy South Carolina electric customers may participate in either our Rooftop or Community Solar programs, but not both. Work in consultation with an independent solar installer to apply to participate in our Rooftop Solar program.
