

How much solar energy does Dominion Energy have?

Since 2013, we've helped bring 2,200 megawatts (MW) of solar into operation in 10 states. That is enough energy to power about 550,000 homes at peak output. Dominion Energy currently has solar energy services in five states. We are planning a significant expansion of large-scale solar energy in Virginia -- up to 16,100 megawatts by the end of 2035.

Does Dominion Energy offer community solar?

Customers receive a monthly credit on their bill for the electricity generated by their panels. (CSP) is a renewable energy solutions provider for utilities and the communities they serve. CSP has partnered with Dominion Energy to offer their community solar product to Dominion Energy electric customers across South Carolina.

How many states does Dominion Energy have solar energy services?

Dominion Energy currently has solar energy services in five states. We are planning a significant expansion of large-scale solar energy in Virginia -- up to 16,100 megawatts by the end of 2035. Learn more about what we are doing in each state: We are committed to growing clean energy and solar generation across the country.

How many solar projects does Dominion Energy Virginia have?

The proposal includes 11 utility-scale solar projects, two small-scale distributed solar projects, one combined solar and storage project, and one stand-alone energy storage project, which will be owned and operated by Dominion Energy Virginia.

What does Dominion Energy Virginia do?

"These projects deliver on our promise of reliable, affordable and increasingly clean energy for our customers," said Ed Baine, President of Dominion Energy Virginia. "Through our investments in offshore wind, battery storage and solar, Virginia continues to make progress on its clean energy transition."

How many solar farms does Dominion own?

Dominion, which has the second-largest solar fleet in the US, will own or acquire four solar farms totaling 329 MW, and it's also made 13 power-purchase agreements (PPAs) totaling 435 MW with independently owned solar projects. That's enough to power nearly 200,000 homes at peak output.

The section established the Shared Solar Program, which provides customers of Dominion Energy Virginia the opportunity to participate in shared solar projects. The 2024 Virginia Acts ...

Dominion, which has the second-largest solar fleet in the US, will own or acquire four solar farms totaling 329 MW, and it's also made 13 power-purchase agreements (PPAs) ...
