

Does Duke Energy offer solar rebates in North Carolina?

Duke Energy customers in North Carolina will soon have access to rebates worth up to \$9,000 for home solar and battery systems. In May 2024, Duke Energy is opening applications to the PowerPair pilot program that offers a one-time incentive for residential solar and battery installations.

What is Duke Energy powerpair?

Duke Energy is implementing PowerPair, a new incentive-based pilot program for installing home solar generation with battery energy storage in its Duke Energy Carolinas and Duke Energy Progress service areas in North Carolina.

Does Duke Energy offer a solar & battery incentive?

The incentive only applies to new solar AND battery systems. Solar-only and battery-only systems do not qualify. At this time, Duke Energy has not released any equipment eligibility requirements. There are two options in the program: PowerPair and PowerPair +EnergyWise Battery Control. The key differences are:

How much does Duke Energy pay for solar panels?

Participants could receive monetary incentives from Duke Energy to offset the cost of installed equipment. The solar incentive is \$0.36/watt for solar panels to a maximum of 10 kW-AC; capped at \$3,600 per residence. The battery incentive is \$400/kWh for battery storage to a maximum of 13.5 kWh total capacity (up to \$5,400).

What is Duke Energy powerpair incentive?

It has a total usable energy capacity of 5.0 kWh, and features six embedded grid-forming microinverters and 3.84 kW of continuous power. Get an accurate solar model of your home in less than 2 minutes. The 2024 Duke Energy PowerPair Incentive offers NC customers an incentive to adopt solar +battery storage with cash incentives up to \$9000.
