

Ecoflow delta pro 3600w solar generator battery power station

What is the EcoFlow Delta Pro?

The EcoFlow Delta Pro is a premium portable power station designed to be your ultimate emergency solution. It's engineered to power an entire home, an RV, or even your adventurous camping trip. It features a 3600Wh LiFePO4 battery offering up to 3500 charge cycles and an extremely fast recharge time using AC or solar panels.

How to charge ecoflow Delta pro 3600w solar generator?

To charge the EcoFlow Delta Pro 3,600W solar generator, you can use the AC wall socket. You have two modes (Fast or Slow) which you can select using a small toggle switch. If you're using the 120V US version, you can fully charge it in a little less than 2 hours, at the rate of 1,800W.

What can the EcoFlow Delta Pro charge simultaneously?

Thanks to a massive 3,600Wh battery and 3,600W of output power the EcoFlow Delta Pro can run up to five essential appliances in your home during a blackout while charging a few gadgets at the same time. As such, I highly recommend it as a home backup power source or a solar generator for your RV or outdoor cabin.

What is EF ecoflow solar generator?

EF ECOFLOW Solar Generator 120V/3.6KWh DELTA Pro with 400W Portable Solar Panel, 23% High Efficiency, 5 AC Outlets, 3600W Portable Power Station for Home Backup Outdoors Camping RV Emergency Non-returnable. Transportation of this item is subject to hazardous materials regulation

How many appliances can a ecoflow Delta Pro run?

Thanks to its massive 3,600Wh battery and 3,600W of output power, the EcoFlow Delta Pro can run up to five essential appliances in your home during a blackout while also charging a few gadgets at the same time.

Is the EcoFlow Delta Pro a good EV charger?

The EcoFlow Delta Pro was designed to make use of existing green energy infrastructure and technology, including EV charging stations. However, it's important to note that it's not specifically marketed as an EV charger, and its primary focus is on portable power stations.
