

Did Thomas Edison put his money on solar energy?

Thomas Edison is quoted as saying: I'd put my money on the sun and solar energy. What a source of power! I hope we don't have to wait until oil and coal run out before we tackle that.

What is Edison Energy?

Edison Energy, Inc. is a company with over 45 years of experience in delivering the right solution to clients.

What did John Firestone say about solar power?

According to the quote, John Firestone details a conversation in which Edison expressed his belief in solar power. 'I'd put my money on the sun and solar energy,' said Edison. 'What a source of power! I wish I had more years left!'

What did Thomas Edison say to Henry Ford?

In 1931, Thomas Edison supposedly told his friend Henry Ford: 'I'd put my money on the sun and solar energy. What a source of power! I hope we don't have to wait until oil and coal run out before we tackle that.'

Will Edison's solar rate plan change hurt a lot of people?

Edison's solar rate plan changes are expected to hurt some solar customers more than others, particularly those without batteries to store their solar-generated electricity for nighttime use. For instance, a senior from La Habra, who installed her solar system 10 years ago and upgraded it halfway through, may be affected.

Did Edison have an electricity power plant?

The article ended with the information that Edison's electricity power plant was hooked up to the grid. In the end, neither his in-home wind-generated electricity nor his battery-powered vehicles reached the mass market.
