

What is the EV route planner?

Zapmap's EV route planner helps you plan your journey with confidence. It shows you where to stop on longer routes, what charging options are available, and how long you'll need to charge.

How can I plan my journey with an electric car?

Plan your journey and calculate the range you can cover with your electric car at the same time! EVNavigation.com is a smart and intuitive trip planner tool, granting you a trustworthy turn-by-turn navigation with voice guidance while supporting each type of charging station for every EV.

Is ChargeWay a good EV route planner app?

ChargeWay is not that great for cross-country road trips. However, it is a great app if you are touring big cities. It lacked some important features that can be found on ABRP and PlugShare apps, which were the best EV route planner apps based on our experiences.

What is the chargemap route planner?

The Chargemap route planner is here to help you plan the ideal trip that corresponds to your EV and preferences. Scores based on more than 55,000 ratings. Prioritise or limit a charging network, avoid tolls and motorways or log in a maximum speed to save on energy. The planner takes your charging preferences on board.

How do I plan an EV trip?

Planning an electric vehicle (EV) trip doesn't have to be complicated. With ChargeHub's EV trip planner, you can easily map your journey and find charging stations across North America. Whether you're commuting, road-tripping, or exploring new destinations, our tools ensure your EV stays powered along the way.

Which EV route planner is most recommended by owners?

45% of the EV owners recommended PlugShare, while 47% recommended ABRP. Some EV owners enjoy using PlugShare in conjunction with ABRP when planning long road trips. Only 6% of EV owners recommended Chargeway.
