

# Electric car charging stations the edge hotel

Where can I find a hotel with EV charging?

You can find hotels with electric vehicle charging stations, like the Las Vegas Marriott, in many popular destinations on Expedia. Browse our deals to find the perfect hotel for you with an EV charging station. There is a growing number of such hotels.

Why do hotels need EV charging stations?

As large energy consumers most hotels are limited by the amount of electricity they can use from the electric grid. EVESCO's unique combination of energy storage and fast charging technology can increase power output enabling the rapid deployment of EV charging stations without the need for expensive electric grid upgrades.

How do EV charging stations work?

EV charging stations take their power directly from the electric grid. Energy management is critical in the hospitality industry, hotel operators must balance the energy demand for EV charging with the existing (and future) power requirements of the hotel itself.

Do hotels have electric car charging stations?

Thankfully, hotel brands are starting to figure this out and have begun adding charging stations to many of their properties. Hilton Hotels for example has an interactive map that outlines all of their properties with electric car charging stations.

How do EV charging stations save money?

By reducing demand charges and shifting usage from peak to off-peak periods, savings can be as much as 70%. Committed to accelerating the deployment of fast EV charging stations, EVESCO provides flexible pricing models to suit every business, allowing any location to be turned into an EV charging location.
