

# Electric car charging stations western australia

Are there EV charging stations in Perth & WA?

If you own an electric car, finding EV charging stations in Perth and WA might seem like a hassle sometimes - but you'll also have the chance to enjoy other potential benefits of driving an EV, such as generally lower running costs, reduced greenhouse gas emissions and reduced air pollution when compared to conventional petrol fuelled cars.

How many EV charging stations are there in WA?

The state's public EV charging network encompasses 110 charging stations at 49 locations spread from the north to south of WA. The Western Australian state government has announced its electric car charging highway project has been completed, with the new infrastructure covering 110 public charging stations found at 49 locations.

Who can use the RAC Electric Highway's charging stations?

The Highway is open to all electric vehicle users in Western Australia and is now part of Chargefox, Australia's largest EV charging network. To use the RAC Electric Highway's charging stations, simply download the free Chargefox app from the Apple App Store or Google Play store and follow the instructions below to charge.

Where can I charge my EV in WA?

The good news is that there are already hundreds of places to charge your EV across regional WA, and that number is steadily increasing. PlugShare is a great tool that is free to use and lets EV drivers see up-to-date information on all the EV charging stations, along with details about how fast they are and what type of plug they use.

Where can I charge my eV at work?

For those with a work supplied EV, your workplace may offer charging stations for you to charge at while you're parked at work. Alternatively, you may be able to plug in at an available charging station nearby. Electric vehicles need to plug in to charge. But like mobile phones, not every plug is the same.
