

How do I replace the batteries on Eve Aqua?

When it's time to replace the batteries on EVE Aqua, you can do so by unscrewing the battery compartment located on the top part of the device. Insert the new batteries following the correct polarity, and ensure that the compartment is tightly closed to maintain its waterproof feature.

How does Eve Aqua work?

Tapping the Eve Aqua's icon in the Home app will start a water cycle, with the device shutting down automatically after the pre-set time. Remote control requires an Apple Home Hub on your home network, which is either a HomePod (Bluetooth only), HomePod Mini (Thread) or Apple TV.

How much water does Eve Aqua use?

EVE Aqua is designed to work optimally with a water flow rate of approximately 600-1000 liters per hour. Adjust the water pressure accordingly to ensure efficient irrigation without any excessive force. How do I replace the batteries on EVE Aqua?

How do I add the Eve Aqua to my Apple home?

The Eve Aqua runs off two AA batteries that sit in a waterproof compartment inside the unit. Once powered up, the kit can be added to your home using the HomeKit or Eve app. It doesn't matter which you use, since the two share data. As such, adding it via Eve, for example, will also add the Aqua to your Apple Home.

What is the Eve Aqua smart TAP controller?

The Eve Aqua smart tap controller is an upgrade from the fairly common tap timers widely available from many stores. It offers a far superior experience to 'smart' Bluetooth timers with a very good app experience, high build quality, and the addition of Thread for more reliable connectivity to your smart home.

Does the Eve Aqua have Bluetooth & thread?

While the Eve Aqua includes both Bluetooth and Thread, and you can use it with HomeKit or just for former, Thread gives you fantastic response times and much more reliable connectivity.
