

Does Eve Energy have a battery supply agreement with BMW?

Eve Energy said it has finalized a cell supply relationship with BMW to provide large cylindrical lithium-ion cells for the latter's Neue Klasse line of models. (Image credit: BMW) Eve Energy has announced a battery cell supply agreement with BMW Group, following a similar agreement announced earlier by CATL.

Will Eve Energy become the primary supplier of BMW & cylindrical battery cells?

Not only that, EVE Energy is expected to become the primary supplier of this type of cells in Europe. The news comes from unofficial sources and there are no official comments, but it's not the first time we've heard about BMW and cylindrical battery cells.

Why is EVE Energy partnering with BMW's Shenyang battery center?

Eve Energy's cooperation with BMW's Shenyang battery center is related to the car firm's plan to use 46 series cylindrical batteries, experts told The Paper. In September, BMW said it would begin to use new cylindrical cells with a standard diameter of 46 millimeters and two different heights from 2025.

Where will Eve energy build BMW round cells?

It is not yet entirely certain where Eve Energy will build the round cells for BMW. Reuters writes, citing company documents, that Eve Energy is planning a large factory for cylindrical cells in central China. In April, Eve Energy announced that it would build a 50 GWh factory in Chengdu, but did not specify which cell format.

Will BMW supply cylindrical batteries in Europe?

According to Reuters, EVE Energy - a Chinese battery manufacturer and a BMW battery supplier in China - will supply BMW with cylindrical batteries in Europe. Not only that, EVE Energy is expected to become the primary supplier of this type of cells in Europe.

Will BMW use cylindrical lithium-ion batteries in next-generation electric cars?

Another report about the upcoming use of large cylindrical lithium-ion battery cells in the next-generation BMW electric cars has emerged. According to Reuters, EVE Energy - a Chinese battery manufacturer and a BMW battery supplier in China - will supply BMW with cylindrical batteries in Europe.

Eve Power is a major supplier to BMW. Eve Power's battery factory in Debrecen (eastern Hungary) has received environmental permit, the Chinese company wrote in a press release published on Friday. The ...
