

What is Eve battery?

Eve Power Co.,Ltd. is a national high-tech enterprise specializing in the innovative development of lithium batteries. Their primary lithium battery holds the leading position in China, and their ER battery ranks the top in the world.

Is Eve a leading battery company?

EVE, established in 2001, is a global lithium battery company that possesses core technologies and solutions for consumer, power, IoT and renewable applications. In the first half of 2021, EVE achieved a power battery installation capacity of 0.87GWh, ranking 10th in the world.

Where are Eve power batteries made?

In the field of power batteries, EVE Power has production bases in Huizhou, Jingmen and Yancheng, covering various technical routes such as cylindrical, square and soft packs. Power batteries are mainly composed of ternary soft packs, ternary squares and iron-lithium squares.

Where is EVE Energy based?

Based in Malaysia, Serving the Globe! The equipment entry ceremony for EVE Energy's first factory with overseas delivery capacity was successfully held. To be the most creative lithium battery leading company and continuously overcome the core technical issues.

Why should you choose Eve?

Improve the stability and utilization of the renewable energy generation, and realize "self generation and consumption" on user-end. *Above data comes from EVE's laboratory. Product performance may differ in different products, please contact us for details. EVE provides you with a comprehensive solution for lithium batteries.

Who uses EV charging system?

For many years, it has been used by China Mobile, China Tower and overseas telecom operators. Provide a long-life residential on- and off-grid system, allowing clean energy to help families to use green energy. Solve the problem of imbalance between distributed renewable energy power generation and to fact EV charging.
