

Does Eve University give a bonus to capacitor capacity?

Mindflood Booster gives a bonus to capacitor capacity. Antipharmakon Aeolis gives a bonus to capacitor capacity. EVE University members can get full reimbursement for most of these skills, among many others, through the University skillbook program. Capacitor Management - 5% bonus to capacitor capacity per skill level.

How much cap warfare resistance does a 4 cap battery have?

Now this is where my cap warfare question comes into play. According to Stacking penalties - EVE University Wiki my 4 Cap batteries on this fit should total to something over 73 percent of Capacitor Warfare Resistance.

Does Eve have a Powergrid?

Every ship in EVE has an internal generator, which provides the "powergrid" you see in the fitting window. Modules fitted onto the ship connect to the powergrid and reserve a portion of the generator output for themselves, reducing the remaining powergrid when fitted.

Does the prophecy have a cap warfare module?

The Prophecy can be effectively fitted with capacitor warfare modules in its high slots. It has a good tank, capacitor and with good drone skills a reasonable amount of dps. Brawling Hurricanes are often flown with a utility cap warfare module. The Dominix is often used as a cap warfare ship.

Do Eve University members get full reimbursement for skills?

EVE University members can get full reimbursement for most of these skills, among many others, through the University skillbook program. Capacitor Management - 5% bonus to capacitor capacity per skill level. Capacitor Systems Operation - 5% reduction in capacitor recharge time per skill level.

What happens if you run out of Mana in Eve?

Just as in many games some spells and abilities require mana, certain modules and abilities in EVE require capacitor energy. Running out of mana means that you can't cast spells for a while; in EVE, running out of capacitor means that you can't use some modules for a while.

This will change with the introduction of stacking penalties, capital cap boosters and no in-flight refitting. Unless you're planning to add the neut resist to Bastion/Triage/Siege I ...
