

What battery does the eve door & window use?

Speaking of the battery, the Eve Door and Window is powered by a single 1/2 AA (ER14250) 3.6-volt cell. The battery size isn't the most common so you'll most likely need to turn to online retailers when it comes time to replace them, but thankfully, Eve does indeed include one to start with in the box.

How to power Eve door & window sensor?

To power the EVE Door & window sensor, it requires a single AA battery. It has a power supply input voltage of 3.6 V, ensuring efficient and reliable operation. The transmitter, which is responsible for sending the status information, has a width and depth of 18 mm, contributing to its compact design.

What is Eve door & window?

Eve Door & Window is a Minimal Thread Device (MTD) - but what does that mean? The current version of Eve Door & Window supports Thread. This technology makes your smart home network more responsive, robust, and increases its reach - the only thing you need is a home hub (Thread border router).

What are the product specifications of the eve door & window?

Below you will find the product specifications and the manual specifications of the EVE Door & window. The EVE Door & window sensor is a wireless device specifically designed for monitoring the status of doors and windows. With a compact size, it has a depth of 24 mm and a height of 23 mm, making it suitable for various door and window frames.

Is the eve door & window worth it?

Missing Android app aside, there's definitely a lot to like about the Eve Door and Window. Eve's contact sensor is reliable, performant, and essentially future-proof thanks to having both Thread and Matter onboard. At \$39.95 each though, automating or monitoring multiple doors and windows around your home can quickly add up.

Does Eve door & window support thread?

The current version of Eve Door & Window supports Thread. This technology makes your smart home network more responsive, robust, and increases its reach - the only thing you need is a home hub (Thread border router). Battery-operated Thread accessories, such as Eve Eve Door & Window represent endpoints in your Thread network.
