

Does Florida Power & Light offer a solartogether program?

Florida Power & Light offers the SolarTogether program for residents who wish to support solar energy. But does it provide any real savings?

Should you install solar panels in Florida?

If you're a Florida Power and Light (FPL) customer, installing solar panels can help you use less electricity from FPL and more of what you generate on your own roof. This can save you hundreds or even thousands of dollars a year on your electricity bills.

How does FPL offer solar energy?

One of the ways FPL has offered solar energy to customers is through its SolarTogether program. SolarTogether is a way for FPL customers to directly support solar projects installed in the state.

What is FPL's solartogether program?

FPL says the SolarTogether program allows subscribers to enjoy the benefits of renewable energy without a large upfront cost or commitment of installing solar on their own roof. In fact, SolarTogether admits anyone who is an FPL customer, including renters, to join.

What is FPL SolarNow?

FPL SolarNow is a community solar program that brings solar power to Florida through hundreds of solar arrays across the state. With the support of dedicated participants, it enables customers to benefit from solar energy without installing panels on their own property.

How does FPL SolarTogether work?

FPL SolarTogether works by generating solar power through solar energy centers, which is then delivered directly to the energy grid. This power is combined with other conventional energy sources in FPL's system. In any given month, season, or year, actual credits may be higher or lower than average.
