

How many solar energy centers are there in Florida?

JUNO BEACH, Fla. - Florida Power & Light Company (FPL) today brings 10 new solar energy centers online throughout Florida. FPL now has 60 solar energy centers installed statewide - capable of generating enough clean, emissions-free energy to power approximately 900,000 homes throughout the state.

Does Florida Power & Light offer a solar together program?

Florida Power & Light offers the SolarTogether program for residents who wish to support solar energy. But does it provide any real savings?

How does FPL offer solar energy?

One of the ways FPL has offered solar energy to customers is through its SolarTogether program. SolarTogether is a way for FPL customers to directly support solar projects installed in the state.

How many solar panels will Florida Power & Light Company install?

FPL continues largest solar expansion in America and is now nearly 50% of the way toward completing its goal of installing 30 million solar panels - a goal now expected to come five years earlier in 2025. JUNO BEACH, Fla. - Florida Power & Light Company (FPL) today announced that it has put into service eight new solar energy centers.

Does Florida Power & Light offer net metering?

Yes, Florida Power and Light offers a net metering program for customers who go solar. With full retail net metering, your home consumes the solar energy produced on your roof first. If you generate more solar energy than your home needs, the electricity gets sent to the grid, and FPL will put a credit on your bill to offset your future usage.

What is FPL SolarNow?

FPL SolarNow is a community solar program that brings solar power to Florida through hundreds of solar arrays across the state. With the support of dedicated participants, it enables customers to benefit from solar energy without installing panels on their own property.

Under Florida's net metering rules, we allow interconnection of qualifying renewable energy systems to offset all or a part of our customer's energy use at their metered service ...
