Unfortunately there was an error. Please try again later. Do you like what you're seeing? Power Supply Input: AC 100-240 V 50/60 Hz, Output DC: 12 volts / 2 amps, Output connection: 5.5 / 2.1 mm, Positive pole inside, Incl. adapter for EU, UK and USA Suitable for: Focusrite Saffire Pro 24, Pro 24 DSP,...

How do I change a preamp in Focusrite control 2?

To change inputs 1 or 2 between instrument and line from Focusrite Control 2 click the Inst button once. When you switch between Inst and Line, the gain stays at the last level you set. Air lets you change your Scarlett's preamp sound with two different modes; Air Presence or Air Presence and Harmonic Drive.

How do I Reset my Focusrite control 2 meter?

As the signal gets louder, the meter in Focusrite Control 2 lights from green to amber (pre-clip). The indicator above the meter shows you the peak level (in -dBFS), the highest level on this track since you started monitoring the input. When you hover over the Peak level meter, you can click to Reset the value. Waiting for an input signal.

How do I enable air on Focusrite control 2?

To enable AIR from Focusrite Control 2 click the Air button. This is the same as pressing the Air button on the Scarlett Solo hardware. When you click Focusrite Control 2's Air button, the last selected Air mode becomes activated. To change the selected Air mode (Presence or Presence and Drive) click the arrow to show the dropdown menu.

How do I add harmonics to Focusrite control 2?

Adds harmonics, in addition to the analogue Air circuit. To enable AIR from Focusrite Control 2 click the Air button. This is the same as pressing the Air button on the Scarlett Solo hardware. When you click Focusrite Control 2's Air button, the last selected Air mode becomes activated.

How much power does a Scarlett solo need?

The Scarlett Solo requires 900mA of power to work. Outputs 1 and 2 are line-level outputs to connect your Scarlett Solo to an amplifier or active monitors. The outputs are balanced 1/4" TRS jack outputs, you can use them with either unbalanced TS or balanced TRS jack cables and connect to speakers with 1/4" jack, RCA or XLR inputs.
