What are electric car charging stations?

Electric car charging stations, \*\*also known as EV stations (Electro-Voltaic), are facilities that provide charging services for electric vehicles. They are on a mission to make electric car usage more convenient and widespread by putting stations everywhere that people go.

Where can I find public charging stations for EVs?

Public charging stations for electric vehicles (EVs) are often located near businesses such as restaurants, shopping centers, parking lots, and other public places. To easily locate them, we recommend using the ChargeHub EV charging map, which is available on the ChargeHub app for free on iOS and Android.

How to realise a charging station?

To install a charging station, you may need to obtain permission from the relevant authorities by considering building laws. This process should be clarified in advance, taking into account the relevant national conditions. It's important to allow enough time for any necessary official procedures.
