

Are solar panels free in New Jersey?

No, solar panels are not free in New Jersey. Solar companies use the term "free solar panels" when they're talking about solar leases and PPAs, which are financing options that don't require upfront payments for the solar panels. You do, however, still have to make payments to the solar company.

Do you pay for solar panels in New Jersey?

Basically, the solar company owns the panels, and you pay the company to use the energy they produce. So, technically you're not paying for the solar panel installation, but you still do have a payment to make. Third-party-owned solar systems are very popular in New Jersey.

Does New Jersey have a solar program?

New Jersey will launch a pilot program encouraging pathways to ownership of residential solar for overburdened households. New Jersey will invest funds to provide grants for workforce training programs and fund customer outreach or interconnection support for electric utilities.

How will New Jersey help low-income residents get solar energy?

New Jersey will extend access to solar energy for low-income residents, particularly in affordable housing. New Jersey proposes to fund a program offering a per-kilowatt incentive, with a capped carve-out for on-site energy storage solutions.

What are the benefits of solar energy in New Jersey?

Homeowners in New Jersey who switch to solar energy can enjoy several financial benefits. There are many benefits of using solar energy in New Jersey, including the Residential Clean Energy Credit (formerly known as the Solar Investment Tax Credit, or ITC). This program was extended in 2022.

Are third-party-owned solar systems popular in New Jersey?

Third-party-owned solar systems are very popular in New Jersey. In fact, 83% of residential solar systems installed in New Jersey in the last 4 years are third-party owned. Because of their popularity, you've likely heard the "free solar panels" speech at some point in the Garden State.
