

Are solar panels really free?

No, solar panels are not free. Advertisers claiming to offer free solar panels typically provide a solar lease or power purchase agreement (PPA). In these arrangements, a company installs solar panels on your house for no upfront cost and charges you a monthly rate for the power they generate.

What is a free solar panel offer?

A "free solar panel" offer doesn't mean you will get solar panels for free. Instead, this usually refers to an agreement that allows you to start using solar panels without incurring upfront costs. However, you will have to make payments in the future.

Should you install free solar panels on your property?

Installing "free" solar panels on your property comes with multiple nuances. While you may not incur upfront costs, you will still have to pay later. Here's how it works. Solar power is something everyone on the planet gets for free. However, the process of turning it into usable energy is expensive.

Does the Department of energy offer free solar panels?

The Department of Energy and the Solar Energy Technologies Office have got you covered! The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested.

Is the offer of free solar panels a scam?

If offers of free solar panels sound too good to be true, it's because they are. Solar panels cost money, and these ads are, at best, misleading attempts to push solar leases and, at worst, complete scams.

Should I get a \$0-down solar loan?

If you don't want to spend any money upfront, financing your system with a \$0-down solar loan is usually your best option. "Free solar panels" aren't free; typically, these programs refer to solar leases or PPAs. The federal government does not provide free solar panels, but does provide incentives that reduce the cost of going solar.
