

Which inverter brand is better, Fronius or Huawei?

Last year I chose between the Fronius and Huawei inverters. Both seemed good quality. In the end I chose Huawei for the smaller footprint and more modern technology. Haven't had any reason to regret it so far. Both brands are good choices, which one you choose depends on your preference.

Is the Fronius inverter a good choice?

The Fronius inverter looked like a good choice when I first started looking at solar. However, their warranty is now below that offered by Sungrow unless you go through their partner network, which appears to inflate prices. Additionally, the fan in the Fronius worried me in the long term. Fronius vs Huawei inverter, any thought please!!!

Is there a cost difference between Huawei and Fronius?

The cost difference between Huawei and Fronius inverters is in line with their wholesale cost difference, including GST. Therefore, there shouldn't be any issue with the pricing.

Are Huawei inverters any good?

In my personal experience they have been good so far and offer good tech and service support. Here is a the Huawei inverter review which might help. They are definitely one of the better quality Chinese made inverters and are also a hybrid (battery) inverter as well with some clever features.

Is the Fronius a good solar system?

The Fronius inverter looked like a good choice when I first started looking at solar. However, their warranty is now below that offered by Sungrow unless you go through their partner network, which appears to inflate prices. You can see real-time consumption, output from each string, etc. with Fronius.

Why are Huawei inverters compared to a religion?

For some on here, Huawei inverters are almost a religion. This comparison is made because of the strong support and belief in the quality of Huawei inverters, despite some criticisms.
