

Does Georgia Power have a simple solar program?

Since January 2017, Georgia Power's Green Energy program has been replaced by the Simple Solar Program. This program allows customers to support and foster the growth of solar energy in Georgia by having Georgia Power purchase and retire Renewable Energy Credits (RECs) generated from solar energy resources on their behalf.

What is GA Solar?

GA Solar is a group comprised of leading experts in solar manufacturing and installation, academia, finance, and the law. They are leading the effort in Georgia to promote the economic and environmental benefits of solar energy through education, advocacy, and industry support. Join their campaign to urge the Public Service Commission to Scrap the Solar Cap!

Does Georgia Power offer a green energy program?

Georgia Power is directed by the Commission to file a proposed Green Energy Program that would allow customers to purchase green energy at an established price. This program would not impact the bills of customers who choose not to participate.

How much does Georgia Power charge per kWh?

Georgia Power charges an additional one cent per kWh for customers who elect to participate in the renewable energy programs. This charge applies to either 50% or 100% of the customer's monthly energy usage. Other options for Georgia Power customers include the Community Solar, Commercial and Industrial, and Renewable /Non-Renewable Programs.

What is Georgia Power's Advanced Solar Initiative (ASI)?

Georgia Power's Advanced Solar Initiative (ASI) is a program initiated in 2012 to procure up to 210 Megawatts (MW) of renewable resources through a combination of Utility Scale and Distributed Generation (DG) Request For Proposals (RFPs) and application processes.

When did the Georgia legislature address environmentally sound energy solutions?

The Georgia Legislature addressed environmentally sound energy solutions in the passage of Senate Bill 93 in 2001. In early 2001, the Commission addressed Green Pricing in Docket No. 13305-U: Georgia Power Company's Application for Approval of an Integrated Resource Plan (IRP) filed pursuant to O.C.G.A. § 46-3A-1 et seq.
