

Who makes ginlong solar inverters?

Ginlong is one of the industry's oldest and most reliable names. Known for its commitment to quality and innovation, Ginlong produces inverters for residential, commercial, and utility-scale solar systems. Its experience and attention to detail make Solis a trusted choice for solar installations worldwide.

How efficient is a ginlong inverter?

The European efficiency of the device is 98.3%. Additionally, Ginlong added a new thin inverter configuration to increase power generation in commercial PV systems by 3.5% across a project's total lifecycle. The inverters feature insulated-gate bipolar transistors (IGBT), adaptive parallel technology, and wave-by-wave current-limiting protection.

Is Ningbo ginlong launching a 5G solar inverter?

Chinese inverter manufacturer Ningbo Ginlong Technologies has included its Solis 110 kW string inverter for commercial PV systems into its 5G technology platform, which hit the market in August. "This is our seventh device joining the platform," Ginlong Marketing Director Hefeng Lu told pv magazine.

How many Solis inverters are there in Australia?

There are 92 of Solis Inverters (under the name of Ginlong Technologies Co Ltd) approved by the Clean Energy Council for the Small-scale Renewable Energy Scheme, which is Australia's home solar rebate program. The majority of the listed inverters are available in Australia.

What is Ningbo Ginlong?
