Who is Go Power! Solar?

Go Power! is one of North America's leading suppliers of recreational and business solar solutions. We started as a small Canadian distributor of solar energy products and have grown to provide portable, renewable electricity solutions for RVs and other applications. When you need portable, renewable electricity, you can count on us.

What can a solar powered generator charge?

Solar-powered generators can charge a variety of devices, including power tools, laptops, and personal devices like Bluetooth headphones and speakers. With a higher power capacity, they can even power household appliances during power outages.

Can a solar-powered generator charge a phone?

Solar-powered generators, or power stations, can be used to charge phones. These compact and affordable units are essentially giant versions of battery power banks. They can be charged in a wall outlet, a vehicle's 12-volt port, or with solar panels (often sold separately).

What does Go Power! specialize in?

From our beginnings as a small Canadian distributor of solar energy products, Go Power! has grown to become one of North America's leading suppliers of recreational and business solar solutions. When you need portable, renewable electricity, you can count on us.

What is a solar-powered generator?

A solar-powered generator, also known as a portable power station, is a clean and efficient charging system that doesn't require gas or produce noise. I started using these a few years ago and was thrilled with their performance.
