

What is a solar RV kit?

Go Power! Solar RV Kits allow you to power appliances in your RV, without hooking up to shore power or a noisy generator. Go Power! Solar RV kits will keep your batteries charged, ensuring you have power when you need it. This mobile DC power system allows you to enjoy the luxuries that electricity provides, without a campsite hookup.

How does your RV Solar System work?

Solar takes the sun's energy and converts it into DC battery power to charge your RV batteries. It is a battery charger that works anytime the sun is out. But how do these components work together to power your RV's components? Read on to learn more. **HOW IS YOUR RV SOLAR SYSTEM LIKE THE FUEL SYSTEM IN YOUR CAR?**

Who is go power?

At Go Power!, we've been a leader in RV solar solutions since 1996 and have shipped more than one million solar panels! With a strong, nationwide network of authorized Go Power! dealers, there's always an RV solar expert close by to help you choose, install, and troubleshoot your RV solar components.

Should you use an off-grid solar system for your RV?

Go anywhere. In the past, many RVers were limited by the availability of campgrounds and shore power. Today, well-designed off-grid solar systems allow RV operators to go without external power for much longer and trade campgrounds for untouched landscapes. Lower costs. Many RV operators use portable generators to charge batteries while off-grid.

Which solar kit is best for RV off-grid power?

For extended RVing or dry-camping, the RIGID Eclipse Solar Kit is a powerful battery charger that's compatible with inverter chargers and ideal for maintaining battery charge. Alternatively, for RVs or boats with limited roof space, the Go Power! SLIM Solar Kit (100 watts) with a PWM-30 Amp Bluetooth® Solar Controller is an excellent choice.

How much power does an RV solar panel provide?

The 190-watt solar panel provides DC power to charge your RV's batteries, and the 1,500-watt inverter provides AC power to run appliances and electronics. This portable solar charging system lets you place the solar panel where you need it for maximum sunlight.
