

Who is Go Power! Solar?

Go Power! is one of North America's leading suppliers of recreational and business solar solutions. We started as a small Canadian distributor of solar energy products and have grown to provide portable, renewable electricity solutions for RVs and other applications. When you need portable, renewable electricity, you can count on us.

What does Go Power! specialize in?

From our beginnings as a small Canadian distributor of solar energy products, Go Power! has grown to become one of North America's leading suppliers of recreational and business solar solutions. When you need portable, renewable electricity, you can count on us.

Does the Go Power Overlander have a generator?

The Go Power! Overlander does not have a generator. It allows you to enjoy the peace and quiet without one, and no longer worry about draining your batteries while away from grid power. The Overlander is the largest single 12-volt solar charging kit on the market, with 200 watts and 9.6 amps of power charging capability.

Which solar kit is best for RV off-grid power?

For extended RVing or dry-camping, the RIGID Eclipse Solar Kit is a powerful battery charger that's compatible with inverter chargers and ideal for maintaining battery charge. Alternatively, for RVs or boats with limited roof space, the Go Power! SLIM Solar Kit (100 watts) with a PWM-30 Amp Bluetooth Solar Controller is an excellent choice.

What can the Go Power! RIGID Eclipse Solar Kit be used for?

The Go Power! RIGID Eclipse Solar Kit is great for maintaining the charge in all types of batteries and is ideal for extended RVing or dry-camping. Easy to install and expandable, it is a powerful battery charger and is compatible with inverter chargers.

What can the SLIM Solar Kit power?

Go Power!'s silver SLIM Solar Kit (100 watts) with a PWM-30 Amp Bluetooth Solar Controller is ideal for RVs or boats with limited roof space. Power your lights, fans, and other DC appliances using power generated from the sun. Perfect for maintaining your battery charge on overnight adventures off the grid.

Gas backup generators were once the go-to for power outages, but our experts recommend considering solar-powered options. While gas generators are effective, they're noisy, fuel-hungry and must be ...
