

Is My RV ready for a rooftop solar system?

Your RV is PRE-WIRED for a Rooftop Solar System! Need a Hand? Easily Add Solar! Your RV features a premium quality rooftop entry port that makes solar panel installation faster, easier, and cleaner. The Go Power's Cable Entry Plate on your RV's roof means you can install a solar panel up to 50% faster.

Can I add solar to my RV?

Easily Add Solar! Your RV features a premium quality rooftop entry port that makes solar panel installation faster, easier, and cleaner. The Go Power's Cable Entry Plate on your RV's roof means you can install a solar panel up to 50% faster. Why Add Solar? Go Anywhere! Keep your batteries charged, without plugging into a power source.

Why should you use solar power at a camp site?

Go Anywhere! Keep your batteries charged, without plugging into a power source. Harness the power of the sun to charge your batteries. With solar you don't have to pay to plug in at camp sites. Enjoy the peace and quiet of solar power, instead of a loud generator.

"Wired for Solar" means that your RV has been pre-wired for installing rooftop solar. Our kits contain everything you need to install and charge your batteries anywhere!

The DC power in your batteries allows you to run lights, fans, slide-outs, and 3-way fridges. In fact, when paired with the right battery size, a 190-watt solar panel can offset the DC use of a family of 4 for up to 3-days!
