

What is a goodwe DNS inverter?

The GoodWe DNS series inverter is lightweight and compact, which makes it ideal for mid-sized residential installations. Dual MPP trackers allow for increased design flexibility, and with an IP65 protection rating, the DNS series is dust-proof and waterproof. It is compatible with both indoor and outdoor installations.

Is the GW5000D-NS a good inverter?

The GW5000D-NS is a good option for household systems. It has a low start-up voltage of only 120V and a panels range of operation of 80-550V. Its fanless design also contributes to its suitability for household use. It comes with features like anti-islanding protection.

Who manufactures GoodWe solar inverters?

GoodWe solar inverters are manufactured by GoodWe Power Supply Technology, which is a Chinese company. They are one of the top 10 best solar power inverter manufacturers. Several customers from different cities in Australia have embraced the GoodWe inverter as a favourite for homes.
