

Are goodwe inverters any good?

GoodWe inverters are one of the best budget options available. Choosing a GoodWe inverter can save you about \$1200 compared to other brands. They are reliable and easy to set up; many installers prefer them. GoodWe is consistently rated as one of Australia's top 3 inverter manufacturers.

Who owns goodwe inverters?

Solar Choice CEO Jeff Sykes gives a hands-on review of GoodWe inverters and their company history. This GoodWe inverter review was completed independently by Solar Choice who has no affiliation with GoodWe. Jiangsu GoodWe Power Supply Technology Co Ltd (trading as GoodWe) were founded in 2010 in Suzhou, China.

What are the different types of goodwe inverters?

GoodWe's product lineup is extensive and diverse. For the purpose of this GoodWe inverter review, I will focus on two types: Residential Solar Inverters and Energy Storage Hybrid Inverters. These inverters come in several series, each with unique characteristics to cater to different individual solar needs.

Is goodwe a good hybrid inverter?

Goodwe became somewhat of an innovator in energy storage systems after releasing the ES series in 2014, one of the world's first successful residential hybrid inverters. At the time, hybrid inverters from most competitors failed or had severe performance issues, while the Goodwe ES series is still one of the most popular hybrid inverters available.

Who are goodwe solar inverters?

GoodWe are well known for their broad range of single phase, three phase and hybrid solar inverters. Goodwe have expanded into battery solutions and recently launched an EV Charger. GoodWe has established themselves as one of the largest volume global solar inverter manufacturers with over 5,000 employees.

What makes goodwe's Residential Solutions inverters a good choice?

5. Built-in export limit: Goodwe's Residential Solutions inverters have a built-in export limit, which ensures that the energy generated by the solar system does not exceed the limit set by the local grid operator. This is especially important in areas where net metering or feed-in tariffs are used.
