Who is the best solar company in Greenville?

The best local solar company in Greenville is Renu Energy Solutions, with a rating of 3.00 stars. Are solar panels really good for the environment? Producing solar panels uses chemicals and produces toxic waste that can be bad for the environment, which is the main drawback of solar panels.

How much does solar cost in Greenville SC?

The average cost of solar power in Greenville, SC is \$2.66 per watt. This is before incentives. After the federal solar tax credit, the final cost drops by 30%, down to \$21,561 for a 11.6 kW system. Local rebates and incentives can further lower the price.

How can I learn about Greenville solar incentives?

To learn about Greenville, SC solar incentives, you can use our Solar Calculator or explore our solar resources for Greenville, SC homeowners.

Are solar panels good for the environment?

If your home consumes a lot of energy, you can impact the environment even more by switching to solar energy. Because solar panels don't release greenhouse gas emissions into the atmosphere when creating electricity, they're a good trade for nonrenewable energy sources.

What are the benefits of solar?

There are lots of wonderful benefits of solar even with the initial cost of installation. It can help the planet and your wallet. Plus, it can raise the value of your home, resulting in even more benefits if you decide to sell your home later.
